Education

SRM University - AP

2024 – 2028

B.Tech in Computer Science and Engineering (AIFT)

Amaravathi, Andhra Pradesh

- Current CGPA: 8.91
- Relevant Coursework: AI/ML Foundations, Data Structures & Algorithms, Computer Organization & Architecture, DBMS

Experience

Google Student Ambassadors (India)

May 2026 – Jul 2026

Google Student Ambassador

Andhra Pradesh, India

- Selected as Campus Ambassador to promote Google Gemini AI adoption; organized workshops on AI fundamentals and cloud computing.
- Conducted technical sessions covering generative AI applications, emerging technologies, and developer best practices.

Unified Mentor

Jun 2026 – Jul 2026

Data Analyst Intern

Remote

- Analyzed logistics data for Nassau Candy Distributor, identifying optimization opportunities in routing and warehouse allocation.
- Recommended factory reallocations using ML-driven analysis, projecting improved delivery efficiency and cost reduction.

FORTEX 36 Hackathon

Jan 2026

Team Agneya – Hackathon Lead

SRM AP, Amaravati

- Led DevMentor AI to 2nd runner-up: AI code intelligence platform with automated debugging, code ghost-writing, and boilerplate template generation; engineered full-stack architecture using React, Express, OpenAI API.

Projects

KADENCE | *React.js, TypeScript, Spotify API, Three.js, WebGL* | 🖱️ Live Demo

- Developed an immersive music discovery platform featuring a 3D interactive music universe for exploring global music charts.
- Implemented intelligent track prefetching, artwork caching, and instant chart navigation to deliver a Spotify-like user experience.
- Engineered high-performance rendering and responsive interfaces capable of visualizing thousands of tracks dynamically.

DevMentor AI | *React.js, Node.js, Express, Tailwind CSS, OpenAI API* | 🖱️ Live Demo

- Built an AI-powered code intelligence platform with automated debugging, code ghost-writing, and boilerplate template generation.
- Implemented automated documentation generation, real-time code analysis, and AI-assisted developer workflows using OpenAI GPT.
- Engineered scalable full-stack architecture with responsive glassmorphism UI and optimized backend performance.

VELARI | *React.js, TypeScript, Tailwind CSS, Framer Motion, GSAP, Three.js* | 🖱️ Live Demo

- Engineered a futuristic AI-inspired platform with immersive UI interactions and high-performance frontend architecture.
- Implemented cursor-reactive animations, dynamic lighting effects, and smooth motion-based transitions using advanced CSS and GSAP.
- Optimized responsive interfaces for visually engaging user experiences across desktop and mobile devices.

Technical Skills

Programming: Java, Python, JavaScript, C, SQL, HTML/CSS

Frontend: React.js, Vite, Tailwind CSS, Framer Motion, GSAP, Responsive UI Design

Backend & AI: Node.js, Express.js, REST APIs, OpenAI API, LangChain, Prompt Engineering, Generative AI

Tools: Git, GitHub, VS Code, Postman, Vercel, Linux

Core CS: Data Structures & Algorithms, OOP, DBMS, API Development
